Quick Start Guide

7

Review your video and audio settings by clicking the Panopto **Menu**—> **Preferences**. Make sure that your primary video is set to the highest setting or to Ultra (motion). No need to worry about the Secondary Video Quality because you will be unchecking this option in the main window.

8

Make sure to select your folder for the class, set your secondary source to "None" and title your recording session per the request of the professor. Once you are ready to record. Click the red Record button. When finished Click Stop. You will be notified via email when the recording has been successfully uploaded and recorded.
